### DESCRIPTION

Sauchenside Farmhouse is a traditional 'C' Listed farmhouse which dates from the 1800s. The farmhouse is stone built with feature crow stepped gables under a slate roof and sits in an elevated position with super views south over the surrounding countryside to the Lammermuir Hills beyond. The property has not been occupied in recent years and is now in need of complete renovation.

The garden is south east facing and enclosed by a stone wall bounding the steading, fields and road.

The current accommodation comprises:

Ground Floor – Entrance vestibule; Hallway; Living room; Kitchen/breakfast room; Dining room; Bedroom and bathroom with WC.

First Floor – 3 Bedrooms.

## EPC

The Farmhouse has an EPC rating F.

## COUNCIL TAX BAND

The Farmhouse has a council tax band D.

## BUILDINGS

The property includes a range of traditional and more modern farm buildings located to the south and west of the farmhouse.

The 'C Listed' traditional buildings have a footprint of circa 432sq.m (GEA) and are set in a courtyard layout to the rear of the farmhouse. These attractive buildings require some upgrade but could offer scope for alternative uses such as conversion to residential units or creation of one larger home or holiday accommodation or even a home office/games/gym/swimming pool (subject to obtaining planning permission).

The more modern buildings are set to the south of the traditional steading and comprise:

1. 5 bay steel portal framed general purpose shed with part concrete wall panels, timber cladding above all under a fibre cement sheet covered roof. Concrete floor.
2. 4 bay concrete framed storage shed with part brick, part stone walls under an asbestos cement sheet covered roof. Uneven concrete floor.
3. Stables with part brick part stone walls under a corrugated iron covered roof. Concrete floor.
4. Stable/store with part brick part stone walls under an corrugated iron covered roof. Concrete floor.
5. 3 bay steel framed workshop with block walls, ventilated steel sheet cladding under an asbestos cement roof. Concrete floor.
6. 4 bay steel frame stables with block walls under an asbestos cement covered roof. Concrete floor.

For the avoidance of doubt the timber built stables to the north west of the steading are excluded from the sale.

## PLANNING

A pre-application enquiry was recently made to Midlothian Council (Ref: 23/00220/PREAPP) in respect of the steading and surrounding land at Sauchenside Farm. Copies of the response received from the council are available from the Selling Agents but in brief we can advise that the summary response was:

"Sensitive redevelopment of the existing Farmhouse and Steadings would likely be acceptable subject to matters of specific details. It is also considered that the principle of small scale development to the gap site and replacement of the redundant farm buildings would most likely be supported subject to detailed matters".

## BUILDING REMOVAL

The Sellers will retain the right to remove at their own cost Building no.1 (unless required by the Purchaser) within twelve months of completion of sale with final details agreed at the point of sale.

## ADDITIONAL LAND

A further 2.06 hectares (5.10 acres) or thereby, of adjoining (outlined blue on the plan herein) land may also be available for sale by separate negotiation affording potential for creation of equestrian facilities or a small holding. This could provide a highly sought after and rarely available package for a lifestyle buyer.

Sale of this land would be restricted to future use for agricultural or equestrian only. Further details can be obtained from the Selling Agents.
